

YLANG 23

## REGARDLESS OF BUDGET, THESE ARE THE BASICS:

- Make it inviting: Include unique furniture and seating
- Highlight the merchandise by minimizing the fixtures
- Focus on the details—light fixtures, artwork, mirrors...

*"Don't discount your existing fixtures. Our Dallas-based client, Ylang 23, was moving into a new space with a new design scheme, but they wanted to keep their preexisting jewelry display fixtures. After we had them refinished, you would never know they were the originals."*
